

Auto Specialization

Designed for students who have an interest in the auto repair industry, Auto Specialization is geared for those students who require repetitive instruction to master program competencies. Students will learn to use tools and equipment to perform detailing, reconditioning, maintenance and simple repairs on vehicles. Employability skills are practiced daily in a simulated automotive repair setting. Community service projects include repairing bicycles for needy children with the Rotary Club of Hudson. Student performance will be measured by demonstration of program competencies. The instructor is ASE certified.

*School counselor recommendation to program only.

GRADE LEVEL: 10, 11, 12
LENGTH: One or two years
SCHOOL: Hudson

CREDIT: Lab 3
